Ninety-Eight Per Cent.

There is a fascination about big profits to a business man. But the conservative and cautious trader prefers to have the lesser per cent. of interest and the larger per cent. of safety in his investments. There is no business man who would not consider it a sound proposition to invest in an enterprise in which absolute loss was impossible and which offered ninety-eight chances in a hundred of a rich profit. The statistics of cures effected by Dr. Pierce's Golden Medical Discovery show that ninety-eight per cent. of "weak lungs" can be absolutely cured. Almost if not all forms of physical weakness may be traced to starvation. Starvation saps the strength. The body is just as much starved when the stomach cannot extract nutrition from the food it receives as when there is no food. "Weak lungs," bronchial affections, obstinate coughs, calls for nourishment. "Golden Medical Discovery" supplies that nourishment in its most condensed and assimilable form. It makes weak lungs strong by strengthening the stomach and organs of digestion, which digest and distribute the food, and by increasing the supply of pure blood.
